## Frontend Developer

+91 9954245718 | [Email](#) | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

### Summary

---

I'm a Frontend Developer with Full Stack experience who loves building web applications that are both functional and easy to use. I work with React.js, Node, Express.js, and MongoDB and enjoy solving problems through clean, efficient code.

### Experience

---

#### Frontend Developer Intern – Tvara

Remote | Aug - Sep 2025

- Fixed UI bugs, made everything responsive, improved performance by 15%.
- Collaborated with the team to deliver features on time.

#### Software Developer Intern – Spiderweb Technologies

Remote | Mar - Apr 2025

- Built a DocuSign-like feature in 45 days, enabling seamless document signing.
- Resolved JavaScript bugs in collaboration with the team, improving stability and UX.
- Scaled the app with AWS, boosting performance by 20%.

#### Podcast Editor – Freelance

Remote | Apr - Nov 2023

- Automated workflows and cut editing time by 50% using Descript.
- Edited 500+ episodes for multiple clients over 3 - 4 years.
- Secured 4 high-ticket clients through socials & referrals.

### Projects

---

#### Subloop | [Code](#) | [Link](#) | [Demo](#)

November 2024

Tools: React, TailwindCSS, Daisy UI, Websocket, Zustand, Razorpay, Node, Express, MongoDB

- Developed a full-stack app using MERN stack with real-time chat and authentication features.
- Integrated Razorpay payment gateway for UPI payment option, because Stripe lacked UPI.
- Designed responsive UI using Tailwind CSS and implemented dark/light mode theme.

#### EV Charger | [Code](#) | [Link](#)

June 2025

Tools: Vue.js, Pinia, TailwindCSS, Node, MongoDB, JWT, Leaflet Map

- Developed a web app to manage EV charging stations with login, filters, and real-time location tracking.
- Integrated Leaflet API to display 50+ charger locations with interactive map popups for quick edits.
- Reduced API errors by 40% through strict input validation and secure, auth-protected routes.

#### PodQuake | [Link](#)

December 2023

Tools: Wordpress, OpenAI, Google Sheets, SEO

- Grew site traffic from 0 - 250k monthly visitors using SEO, AI, and automation.
- Used OpenAI API + Google Sheets to automate content creation.
- Hosted on DigitalOcean for optimized performance & fast load speeds.

### Technical Skills

---

- **Programming Languages:** JavaScript, TypeScript
- **Frontend Development:** React.js, HTML, CSS, TailwindCSS
- **Backend Development:** Node.js, Express.js, REST APIs
- **Database Management:** MongoDB, Postgres
- **Tools & Technologies:** Postman, Git, AWS, VS Code

### Education

---

- B.Com, Tezpur University

July 2019
