

SUMMARY

Backend developer who loves building web applications that are both functional and easy to use. I work with Node.js, Express, MongoDB and enjoy solving problems through clean, efficient code. I love building practical solutions and learning by doing.

EXPERIENCE

Frontend Developer Intern – Tvara	Remote Aug - Sep 2025
<ul style="list-style-type: none">Fixed UI bugs, made everything responsive, improved performance by 15%.Collaborated with the team to deliver features on time.	
Software Developer Intern – Spiderweb Technologies	Remote Mar - Apr 2025
<ul style="list-style-type: none">Built backend for a document signing feature using Node.js and ExpressResolved JavaScript bugs in collaboration with the team, improving stability and UXImplemented JWT authentication and integrated AWS S3 for secure document storageOptimized MongoDB queries and database indexing, improving API response times by 20%	
Podcast Editor – Freelance	Remote 2020 - Present
<ul style="list-style-type: none">Edited 500+ podcast episodes for multiple clients, with great attention to details	

PROJECTS

SocialAuto Work in progress	September 2025
Tools: BullMQ, Redis, Node, Express, MongoDB, React, Tailwind	
<ul style="list-style-type: none">Building a tool that auto generates content & posts on social media based on user preferences and scheduleImplemented BullMQ for background job to handle scheduled posts without blocking the main serverSupports adding multiple businesses, and multiple social platforms (IG, X, LinkedIn) under each businessDesigned automated scheduling logic where users configure once (business details, content goal, schedule)Challenges: Meta API post permission, designing autopost logic, supporting multiple business & social platforms	
Subloop Code Link Demo	November 2024
Tools: React, Tailwind, Daisy UI, Webcam, Zustand, Razorpay, Node, Express, MongoDB	
<ul style="list-style-type: none">Developed a full-stack app using MERN stack with real-time chat and authentication featuresDesigned MongoDB schema and created RESTful APIs with ExpressImplemented user authentication with JWT and integrated Razorpay payment gateway	

PodQuake Link	December 2023
Tools: Wordpress, SEO, OpenAI, Google Sheets	
<ul style="list-style-type: none">Grew site traffic from 0 - 250k monthly visitors using SEO, AI, and automationUsed OpenAI API + Google Sheets to automate content creationHosted on DigitalOcean for optimized performance & fast load speeds	

SKILLS

- Backend:** Node.js, Express.js, REST APIs
- Databases:** MongoDB, PostgreSQL, Redis
- Tools:** Docker, AWS, Git, Postman, BullMQ
- Frontend:** React.js, Tailwind, HTML, CSS
- Languages:** JavaScript, TypeScript, Python

EDUCATION

- B.Com, **Tezpur University** **July 2019**
